
ABLRFD User Manual

Release v1

Michael Baker International

Aug 12, 2026

CONTENTS:

1	Contents	3
1.1	Usage	3
	Index	5

Add your content using reStructuredText syntax. See the [reStructuredText](#) documentation for details.

Check out the [Usage](#) section for further information, including how to *install* the project.

CONTENTS

1.1 Usage

1.1.1 Installation

1.1.2 Creating recipes

To retrieve a list of random ingredients, you can use the `lumache.get_random_ingredients()` function:

```
lumache.get_random_ingredients(kind=None)
```

Return a list of random ingredients as strings.

Parameters

kind (*list[str]* or *None*) – Optional “kind” of ingredients.

Returns

The ingredients list.

Return type

`list[str]`

```
(.venv) $ pip install lumache
```

INDEX

B
